SUMMARY

A passionate problem-solver and self-driven ambitious Artificial Intelligence Engineer with hands-on experience in training and deploying machine learning models, reducing inference costs, and building production-ready conversational interfaces and multi-modal models. Adept at enhancing software performance, developing new software functionalities, executing comprehensive testing and bug fixing, and meticulously overseeing quality assurance. Versatile and quick learner, willing to embrace new challenges and eager to learn more.

EXPERIENCES

Machine Learning Engineer Intern

Apr 2026 - Present

[Inverse.AI](#)

- ▶ **Pronunciation Assessment LLM System:** Conducted optimization, evaluation and R&D to enhance a mispronunciation detection system by analyzing speech recognition errors and mitigating dataset biases to improve overall accuracy.
- ▶ **Dominant Speech Extraction:** Developed solutions to isolate and extract targeted speech from noisy and complex audio environments.
- ▶ **Speech-to-Text Converter:** Contributed to the research and development of an LLM-based Automatic Speech Recognition (ASR) model, implementing extensive fine-tuning, evaluation, and model optimization for accurate audio transcription.
- ▶ **Quality Assurance & Testing:** Performed comprehensive testing, debugging, and issue resolution across multiple AI projects, including providing technical support for an iOS application during its development phase.

Teaching Assistant– Assisted in C Programming & OOP

Jan 2025 - Apr 2026

[Bangladesh University of Business and Technology](#)

- ▶ **Student Support:** Guided students in C/C++ and OOP, teaching complex logic building and debugging techniques.
- ▶ **Lab Instruction:** Instructed lab classes, ensuring continuity of instruction during instructor absences.
- ▶ **Competitive Programming:** Introduced basic competitive programming techniques aligned with academic coursework to prepare students for future semesters and advanced problem-solving.

COMPETITIVE PROGRAMMING

- ◆ Achieved CodeForces [Expert](#) title (rating 1632*).
- ◆ Secured 54th and 67th places in the ICPC Dhaka Regional 2025 and 2024.
- ◆ 10th Ranked in UITS IUPC-2023.
- ◆ Actively participated in several National Programming Contests including (ICPC Dhaka Regional 2024 and 2025, NCPC 2023, CUET IUPC 2025, BUET IUPC 2024, UIU IUPC 2025, UAP, UITS Collaborative Contest etc).
- ◆ Solved around 1000+ problems and Participated in 100+ contests in various online judges.

Online judge profiles: [Codeforces](#), [CodeChef](#), [LightOJ](#), [CSES](#), [UVa](#), and [LeetCode](#).

TECHNICAL SKILLS

Language: C/C++, C#, Java, Python, JavaScript, MySQL, and Dart.

AI & ML: LLMs, Fine-tuning, Model Optimization, Model Evaluation, RAG, LangChain, and Agents.

Proficiency: Problem-solving, Data Structures, Algorithms, and OOP.

Framework: ASP.NET Core MVC, Spring Boot, and Flutter.

Technology: Git, GitHub, HTML, and CSS.

PROJECTS

- † VocabTracker (Tap Translation & Vocabulary Manager) – JavaScript, Manifest V3, Chrome Extension API, REST API [Link](#)
- † Task Scheduler App – C#, .NET, Angular [Link](#)
- † Shoe Gallery (Online Shoe Store) – Dart, Flutter [Link](#)

EDUCATION

[Bangladesh University of Business and Technology](#)

Oct 2021 - Jul 2025

B.Sc. (Engg.) in Computer Science & Engineering (CGPA 3.13/4.00)
